U. S. Department of Energy
Public Reading Room

Dear Sir or Madam,

This shipment consists of two boxes of material related to plutonium injection experiments on humans that was recently released to the media under a Freedom of Information Act request.

Box 1 consists of redacted medical files on eighteen subjects injected with plutonium and box 2 consists of background papers. This material is part of the human radiation research records inventory and retrieval project and is being distributed to Public Reading Rooms, Department-wide.

This material should be placed in your Public Reading Room for use by the general public.

Questions can be directed to myself or to Verlette Moore of my staff on (202) 586-5955.
